

# St. Mary's CE (Aided) Primary School SEN Information Report

Life in all its fullness – John 10:10.

I know the plans I have for you. Plans to make you prosper – Jeremiah 29:11.

1. What kinds of Special Educational Needs do St. Mary's Primary school have provision for?

St. Mary's Primary School is a fully inclusive school, and we strive to meet the needs of all of our children.

SEN are generally thought of in the following four broad areas of need and support:

- •Communication and interaction: children and young people with speech, language and communication needs (SLCN) have difficulty in communicating with others. This may be because they have difficulty saying what they want to, understanding what is being said to them or they do not understand or use social rules of communication. Children and young people with ASC, including Asperger's Syndrome, Autism, pathological demand avoidance (PDA) and pervasive developmental disorder (PDD) are likely to have particular difficulties with social interaction. They may also experience difficulties with language, communication and imagination, which can impact on how they relate to others.
- •Cognition and learning: support for learning difficulties may be required when children and young people learn at a slower pace than their peers, even with appropriate differentiation. Learning difficulties cover a wide range of needs, including moderate learning difficulties (MLD), severe learning difficulties (SLD), where children are likely to need support in all areas of the curriculum and associated difficulties with mobility and communication, as well as a physical disability or sensory impairment. Specific learning difficulties (SpLD), affect one or more specific aspects of learning. This encompasses a range of conditions such as dyslexia, dyscalculia and dyspraxia.
- •Social, emotional and mental health difficulties: children and young people may experience a wide range of social and emotional difficulties which manifest themselves in many ways. These may include becoming withdrawn or isolated, as well as displaying challenging, disruptive or disturbing behaviour. These behaviours may reflect underlying mental health difficulties such as anxiety or depression, self-harming, eating disorders or physical symptoms that are medically unexplained. Other children and young people may have disorders such as attention deficit disorder, attention deficit hyperactive disorder or attachment disorder.

•Sensory and/or physical needs: some children and young people require special educational provision because they have a disability which prevents or hinders them from making use of the educational facilities generally provided. These difficulties can be age related and may fluctuate over time. Many children and young people with vision impairment (VI), hearing impairment (HI) or a multi-sensory impairment (MSI) will require specialist support and/or equipment to access their learning. Children and young people with an MSI have a combination of vision and hearing difficulties. Some children and young people with a physical disability (PD) require additional ongoing support and equipment to access all the opportunities available to their peers.

#### 2. How do St. Mary's identify and assess pupils with special educational needs?

The following ways to identify and assess SEN may be used at St. Mary's Primary School:

- Information from a pre-school setting or previous school a child attended
- Discussions from home visits prior to admission into school
- Early Years Foundation Stage data
- KS1 results
- KS2 results, primary school reports, baseline assessments
- Transition meetings
- Parental meetings
- Ongoing assessment gathered half termly. Data used to identify attainment and progress to show whether a child is falling behind their peers and/or whether the child is not progressing as expected.
- Educational psychologist reports, reports from specialists from Bury LA Additional Needs Team, input from social care, Children in Public Care (CYPIC) meetings, Early Help Family Support Plan
- Annual Review meetings

### 3. How does St. Mary's plan and evaluate provision for pupils with Special Educational Needs?

Provision at St. Mary's may include:

- A range of assessment tools are used to monitor pupil progress on an ongoing basis and, if adequate progress is not being made then appropriate support is put in place which may include additional teacher, TA, SENCO, Health, Social Care or Bury LA Additional Needs Team specialist support.
- The effectiveness of SEN provision is analysed by the SENCO and the findings are presented to Governors.
- An Education, Health & Care Plan will outline the resources needed to provide appropriate support for SEN pupils.
- In addition to the usual assessment and target setting procedures at St. Mary's, SEN pupils will have a formal annual review meeting to review progress and provision.
- Feedback on short term targets is provided to parents three times a year and an annual report will be provided, that reviews progress and attainment.
- Targets are set for pupils in consultation with parent and child, which are sent home so parents can help their child to work towards achieving them.
- Feedback is sought from parents on the effectiveness of support, to enable ongoing development of support packages.
- Every child's needs are different, and teachers are experienced in identifying these and the necessary support. The class teacher and the Special Educational Needs Co-ordinator (SENCO) will discuss with parents the most appropriate approach to be taken for each child.

- Pupils are placed in ability groups, which allows specific support to be placed with those children who will need it.
- Wherever possible, children with SEN are taught in mainstream classes as part
  of our inclusive strategy. Specialist teaching of a specific teaching programme
  in small groups or individually, for SEN pupils may also be used, based on
  personalised, individual's needs.
- The school has a fully inclusive policy, and pupils regardless of special educational need or disability are fully integrated in all aspects of school life. The school tries to ensure that no child is excluded from educational visits or out of school activities because of their SEN or disability.
- The school has a pastoral system in place to provide support to all pupils.
- Additional support is available to children who are vulnerable, and those that
  experience a range of emotional, social and behavioural difficulties. Our TAs
  who have specific skills in these areas are matched to pupils with these needs.
  If needed, specialists from Bury LA Communication Difficulties Team, Inclusion
  Team, School Nurse, social care or CAMHS may also support pupils in school.

#### 4. What support will there be for a child's overall wellbeing?

For all pupils there is a high level of pastoral support provided within the ethos of our school as a faith school. There is a focus on Emotional Wellbeing and promotion of positive mental health. Children can access 'Nurture Groups' or the Rainbows programme, which addresses the needs of pupils who have experienced bereavement or loss due to changes in their family relationships. Children's medical needs are carefully managed in school. Where appropriate, an IHC (Individual Health Care) Plan will be devised following a meeting between the child's parents and the class teacher. St. Mary's has an anti-bullying policy in place and there is time spent in class/school to ensure that children know how to keep themselves safe. There is also curriculum time dedicated to raising awareness of Internet Safety and Cyber-bullying. The School Council & Ethos Group meet and allow children an opportunity to have their views represented and to have a voice in whole school policies & initiatives.

### 5. Who can I contact in school regarding my child and Special Educational Needs?

- The first point of call should always be your child's class teacher. After this, you may wish to contact:
- The SENCO- Mrs. Casey. You may contact the SENCO via the school telephone number 0161 773 3794, email address <u>s.casey@stmarys-prestwich.co.uk</u> or by post- St. Mary's CE Primary School, Rectory Lane, Prestwich, Manchester, M25 1BP
- The Headteacher- Mrs. D. Holding
- The SEN governor- Fr. S. Conlon
- All information required to make contact is also on the school website.

#### 6. How will school ensure my child receives appropriate and expert provision?

The SENCO at St. Mary's has the 'National Award in Special Educational Needs Coordination' qualification. The role of the SENCO involves:

ensuring all practitioners in school understand their responsibilities to children with SEN and the school's approach to identifying and meeting SEN, advising and supporting colleagues, ensuring parents are involved throughout and that their insights inform action taken by the school, and liaising with professionals or agencies beyond the school.

 The school has access to specialist SEN training via Bury LA Learning Collaborative training packages.

- Additional training for staff is secured where necessary. This might be delivered
  in school by external training sources using specialist teachers/health care
  professionals i.e.) School Nurse delivers Asthma, Diabetes and Epi Pen training
  for staff. Hearing Impairment Teacher may deliver training for all staff on use
  of Radio aids. Speech Therapists train our TAs in the delivery of individualised
  Speech Therapy programmes for our pupils in school. Physiotherapists and
  Occupational Therapists assist our TAs in administering exercises for pupils
  during school hours.
- Support roles required in school are advertised with specific criteria, so the member of staff appointed has the best qualifications and expertise to meet the needs of the individual child.
- St. Mary's uses an Appraisal system for TAs where staff can identify training needs and set objectives for improvement.

#### 7. How will specialist equipment and facilities will be secured?

- Where a child continues to make less than expected progress, despite evidence based support and interventions that are matched to the child's area of need, we may consider involving appropriate specialists, for example, health visitors, speech and language therapists, educational psychologists or specialist teachers, who may be able to identify effective strategies, equipment, programmes or other interventions to enable the child to make progress towards the desired learning and development outcomes. The decision to involve specialists will be taken with the child's parents.
- The SENCO will make effective use of the SEN budget to secure necessary equipment for SEN pupils.
- Laptops can be made available for individuals who may find traditional methods of recording difficult.
- Liaison between school and health services takes place to ensure equipment used by SEN pupils is in good working order.
- Governors annually review the effectiveness of Service Level Agreements for SEND.
- Annual bids are made to LCVAP (Local Authority Co-ordinated Voluntary Aided Programme) to secure funds for improved access in school. See separate Buildings and Accessibility plans.

#### 8. How will we involve parents in the education of their child.

- Parents are informed of any targets that their child is set and of any additional support that is provided and are given regular feedback on the progress that their child is making.
- Parents are given the opportunity to meet with staff and discuss the progress and attainment their child is making.
- For pupils with an EHC plan there will be a formal annual review meeting to review progress and provision.
- Parents' Evenings and additional meetings with the SENCO and class teacher are arranged to provide timely feedback to parents.
- Sometimes, where necessary/useful a Home-School Diary or the use of the Dojo home/school communication system will be used to keep lines of communication between home and school effective.
- Team Around the Family/Early help Family support Plan meetings are held with parents and other professionals involved with the child.

#### 9. How will school involve children in their own education?

- Targets are discussed with pupils and regularly referred to during the term they were set.
- There are opportunities set aside during lesson times for pupils to respond to the teacher's marking comments and TA comments in books.
- Small teacher led groups offers opportunities for pupil/teacher dialogue about their learning and next steps.
- Pupils' views are sought through pupil voice; enabling feedback on the effectiveness of support provided.
- Pupils may also be able to provide feedback at parents' meetings and annual reviews.

### 10. What should I do if I am unhappy with the Special Educational Needs provision my child is receiving?

- If you have any concern or complaint regarding the provision your child is receiving, the order of people in which to raise these concerns with is:
  - 1. The class teacher
  - 2. The SENCO- Mrs. Casey
  - 3. The Head teacher Mrs. Holding
  - 4. The SEND Governor -Fr. S. Conlon
- The school's complaints procedure is published on the school website.

## 11. How will the school involve outside agencies to support my child with Special Educational Needs?

- There is a link SEN governor who has oversight of the procedures in the school. The SEN Governor meets with the SENCO and produces a report for the governing body. The SENCO provides reports to governors on the effectiveness of SEN provision.
- School has access to a range of services. These include Bury LA Additional Needs Team, Educational Psychologists, the school nurse, health visitors, speech therapy, occupational therapy, NHS Child Development Centres, social care and CAMHS. If it was felt necessary, a referral can be made to these agencies, following their specific referral guidance and threshold. Referrals would only be made to support SEND with parental agreement and consent.

### 12. What can the Local Authority offer to support my child with Special Educational Needs?

- This information will be set out in Bury authority's Local Offer: https://theburydirectory.co.uk/send-local-offer
- The following services provide further advice and support for parents and carers of young people with SEND:
- Bury SENDIASS (Special Educational Needs Disability Information Advice Support Service) - provides free impartial information, advice and support to disabled children and young people aged 0-25, and those with SEN.

#### https://theburydirectory.co.uk/services/bury-sendiass

• Bury2gether - a community support network, for parents and carers of young people with SEND who access services in Bury.

Website: www.bury2gether.co.uk/Email:

bury2gether@gmail.com/Facebook: facebook.com/groups/bury2gether

### 13. How does St. Mary's support children with a Special Educational Need during periods of transition?

- During times of transition, additional support will be put in place for those children who may find these times challenging. This can be in the form of spending time with their new class teacher in the summer term before a change in year group.
- Our school has an extensive transition programme in place both for children joining the school, and those moving on.
- We have close links with local Nursery, Primary & High schools, and through additional taster sessions and open days, seeks to minimise the impact of transition.
- Assessment and progress data, IEPs, attendance, reports from professionals from other services and behaviour information including details about friendship groups etc. is collected from a pupil's Nursery or primary school to enable a smooth transition to the next setting.
- Meetings between SENCOs, teachers and staff from receiving and transferring settings take place prior to transfer.
- SENCO from receiving setting can attend annual review meetings, where appropriate.

#### 14. Information on where the local authority's local offer is published.
